Importance: High

Allen,

I'm drafting a FR notice for all permits that will need LCR coho. As soon as possible, please tell me whether or not permit 1427 will need LCR coho. We can work on the numbers after that.

Thanks, Leslie

I'm not sure what you mean by "Workplans for species and numbers to be coll

I've attached a copy of the permit, fyi.
Leslie

HAMEL Allen wrote the following on 9/13/2005 3:19 PM:

Yes, there plans to collect fish in the Lower Willamette and Clackamas River basins during the 2006/2007 sampling seasons. Workplans for species and numbers to be collected are in the written. Coho is not a planned target species, but might get taken incidentally. The collection method will be electrofishing. The planned sampling timeframes are July to mid-September.

Leslie,

Sorry, but I am no longer involved in this project. Perhaps Greg Pettit or Dennis Ades would know if there are plans on renewing the permit. I have included them on the email.

Gene

Gene,

You are listed as an investigator on Jared's Section 10 Permit #1427. I've attached a copy of the for your review. Because Jared will not be back until after August 29, I was hoping you could help.

Yesterday I sent an email to all permit holders who's permit covered take of Lower Columbia River (LCR) species, asking for a response by August 29. The email stated:

"If you expect to take LCR coho salmon in 2005, you must submit a modification request to your existing permit (or a new permit application) by August 29, 2005. Applications submitted by that date may qualify for a "grace period" during which research can continue through the end of the year. If you do not request a modification by August 29, 2005, you will not be authorized to take LCR coho until we issue you a new permit or a modification to your existing permit.

You should have received an email in late June explaining this and announcing NOAA Fisheries new ESA hatchery policy and salmon listings. If you would like another copy of that email, let me know."

I realize you may not be familiar with these issues. If you have any questions or you are not sure if this applies to you, please email or call me at 503-230-5433.

Leslie Schaeffer
